

# HASIBUL SANTO

## IT ENGINEERING STUDENT

📍 MIKKELI, FINLAND  
☎ +358442462536  
✉ HASIBULSHANTO995@GMAIL.COM  
🌐 [HASIBUL SHANTO](#)

## SKILLS

- Data Center Operations
- Data Center Infrastructure
- System Monitoring
- Fault Detection & Troubleshooting
- Data Center Cooling & Thermal Management
- Data Center Cabling Fundamentals

## EDUCATION

*Bachelor of Engineering – Information Technology* 2023 – 2026  
South-Eastern Finland University of Applied Sciences.

## LANGUAGES

- English: [4/5]
- Finnish: [2/5]

## PROFESSIONAL PROFILE

IT Engineering student with knowledge of data center infrastructure, networking, operating systems, cloud computing and cybersecurity. Completed Schneider Electric University training in data center cabling, cooling, temperature management and infrastructure. Highly motivated to develop a career in data center operations, monitoring and troubleshooting and willing to work in 24/7 shifts.

## EXPERIENCE

### DATA CENTER TRAINING (Schneider Electric University)

Completed courses related to data center infrastructure and operations:

- Standardization in the Data Center
- Fundamentals of Cabling Strategies for Data Centers
- Data Center Temperature Rise During a Cooling System Outage
- Fundamentals of Cooling Architecture I: Heat Removal Methods
- Determining Data Center User Requirements

Knowledge areas: Data center standards, infrastructure, cabling, cooling systems, heat management, temperature control, reliability and data center requirements.

## RELEVANT PROJECTS & PRACTICAL STUDIES

- Cisco networking and troubleshooting labs using Packet Tracer
- SSH configuration and secure remote access
- IPv4/IPv6 addressing and subnetting
- VLAN and network configuration
- Linux system administration exercises
- Linux service monitoring and troubleshooting
- Nginx installation and service management
- Network security and ACL exercises
- Data center infrastructure and cooling studies

# PROFESSIONAL CERTIFICATES

## SCHNEIDER ELECTRIC UNIVERSITY COLLEGES :

- Standardization in the Data Center.
- Fundamentals of Cabling Strategies for Data Centers.
- Data Center Temperature Rise During A Cooling System Outage .
- Fundamentals of Cooling Architecture I: Heat Removal Methods.
- Determining Data Center User Requirements.

## IBM / COURSERA:

- Operating Systems: Overview, Administration, and Security
- Computer Networks and Network Security
- Cybersecurity Compliance Framework, Standards & Regulations

## AWS Academy:

- AWS Academy Graduate – Cloud Foundations  
Issued by Amazon Web Services Training and Certification

## TECHNICAL KNOWLEDGE

- Networking
- Operating Systems
- Data Center
- Cloud
- Cybersecurity

## RELEVANT PROJECTS & PRACTICAL STUDIES

- Cisco networking and troubleshooting labs using Packet Tracer
- SSH configuration and secure remote access
- IPv4/IPv6 addressing and subnetting
- VLAN and network configuration
- Data center infrastructure and cooling studies

## ADDITIONAL INFORMATION

- Strong interest in data center technology and critical infrastructure
- Willing to work 24/7 shift schedules
- Motivated to learn electrical, cooling, power and data center systems
- Available for permanent full-time employment
- Driving license B , Occupational safety card & Hygiene pass.
